## CARDINAL MOONEY HIGH SCHOOL RENOVATION

---

ms consultants is currently the design consultant for the repair and modernization of the Cardinal Mooney High School. The \$5 million renovation project will ensure the safety of the 500+ students and staff while also reducing operational costs and improving energy-efficiency.

The school, originally constructed in 1955, began to show its age, including an outdated roof, leaking windows, and inefficient lighting.

The renovations to Cardinal Mooney High School are being strategically aligned during summer breaks. This will allow the upgrades to be performed without any disruptions to students. All renovations are anticipated to be completed by the 2017-2018 school year.

---

## RENOVATIONS WILL INCLUDE:

- Roof replacement
- New window system, meeting current energy standards
- Energy efficient lighting
- Ceilings providing sound control in classrooms and hallways
- ADA accessibility
- Cafeteria renovation
- Repair and renovation of the heating and ventilation systems

---

## GROUNDBREAKING

The official groundbreaking was held on May 28, 2015.
